

DOWN TO A SCIENCE

informal, flexible learning areas – all joined together in one cohesive precinct for the first time in university history.

“This multi-disciplinary, flexible learning building is unique and was initially a challenge for us. Through early stakeholder engagement and with a significant number of key stakeholders, strong communications was key. In implementing a range of innovative approaches, we were successful in winning the 2018 Master Builders Association of Victoria Excellence in Health and Safety Award for this project,” said Paul.

“Responsible team leaders included Kane’s Design Manager, Jack Cahir, Senior Engineering Manager, Jason Malnmur, Senior Site Manager, Grant Watson and WH&S Coordinator, Emeile Dawkins.”

The new WEBS building was originally designed to achieve a minimum 5 Star Green Star rating but through Kane’s exceptional team initiatives, is now a 6 Star Green Star building and one of the first of its kind.

The University of Melbourne (UoM) Western Edge Bioscience Project includes the construction of a new facility of 10,575m² GFA to a 6 Star Green Star rating, the design and construction of wet laboratories, the refurbishment of Building 142 South, protection and enhancement of the System Garden including trees and existing buildings, and the landscaping of Tin Alley.

The University of Melbourne (UoM) is now preparing the next generation of bioscientists, vets and doctors in an innovative new bioscience precinct at their Parkville campus in Melbourne. The new world-class facility is one of the University’s first Science, Faculty of Medicine, Dentistry and Health Sciences, and the Faculty of Science all in the same building.”

The world class facility includes both wet and dry teaching labs, a sizeable object based learning space and many other formal and

“The WH&S initia

The team created a 3D model of the building allowing a virtual walkthrough before construction. Various university managers, such as the Plant Manager were able to walk through their areas, allowing for any necessary design changes to be made well in advance.

The privately owned, multi-award winning commercial construction company has an annual turnover in excess of \$1 billion. With over 500 full time employees, Kane operate throughout the east coast of Australia and overseas from offices in Melbourne, Sydney, Brisbane and Canberra.

Additional projects such as the \$45 million Geelong Library and Heritage Centre won Kane the 2016 Master Builders Australia National Commercial Master Builder of the Year Award, and the GMHBA Stadium Stage 4 Brownlow Stand Redevelopment, won Kane the 2018 Australian Institute of Building, National Professional Excellence Commercial Construction \$25M - \$100M Award.

Heading into 2019, the team are currently delivering several notable projects including the \$102 million Ballarat GovHub, \$75 million Cabrini Health Gandel Wing, \$55 million Cato Square project and the \$45 million Shepparton Art Museum (SAM).
